

2021 Science Year 7-10 Topic Tests Information Sheet

2021 Year 7-10 Topic Tests are sets of structured test questions and their solutions.

Each year level set includes four of the following tests:

- Biological Sciences Test
- Chemical Sciences Test
- Physical Sciences Test
- Earth and Space Sciences Test

The structure of each test is as follows:

Section A: 10 multiple choice questions (1 mark each, 10 marks total)

Section B: 3-5 short answer questions (20 marks total)

Our goal is to assist teachers in assessing students efficiently. Our tests and exams have been designed to enable this:

- we made sure that all our questions adhere to the current Australian science curriculum
- all of our work have been reviewed multiple times to ensure quality and relevance
- the graphs and diagrams we used are professionally produced by graphic designers

Distribution

We will email electronic copies

File format

MS Word DOCX format and PDF format

Sample

We have attached sample questions

Release date

1st of March 2021
