

2022 Science Year 7-10 Topic Tests Information Sheet

2022 Year 7-10 Topic Tests are sets of structured test questions and their solutions.

Each year level set includes four of the following tests:

- Biological Sciences Test
- Chemical Sciences Test
- Earth and Space Sciences Test
- Physical Sciences Test

The structure of each test is as follows:

Year 7 – 8 Tests:

Section A: 10 multiple choice questions (1 mark each, 10 marks total)

Section B: 3-5 short answer questions (20 marks total)

Year 9 – 10 Tests:

Section A: 15 multiple choice questions (1 mark each, 15 marks total)

Section B: 3-5 short answer questions (20 marks total)

Our goal is to assist teachers in assessing students efficiently. We have implemented the following when producing our questions:

- we made sure that all of our questions adhere to the current Australian Curriculum
- our work has been reviewed multiple times to ensure quality and relevance
- the graphs and diagrams we used are professionally produced by graphic designers
